Acme Corp Annual Report 2021 – SUPERSEDED

NOTICE: This report has been superseded by the 2024 Annual Report

This document is retained for historical reference only. For current figures, please refer to annual_report_2024.pdf.

Company Overview

Acme Corp was founded in 2015 and has grown to become a leading provider of enterprise data management solutions. As of year-end 2021, the company operates in three geographic regions: North America, EMEA, and APAC.

Financial Highlights 2021

Annual Revenue: USD $3.1 million

Gross Margin: 58%

The company achieved 28% year-over-year revenue growth, driven primarily by expansion in the North American mid-market segment.

Workforce

Total Headcount as of December 31, 2021: 290 employees

The workforce grew by 45 employees during 2021, with the majority of new hires in Engineering (22) and Sales (15).

Note: This figure is frequently confused with 2024 headcount data (312) in cross-document queries.

Strategic Outlook 2022

Management is targeting 25% revenue growth for 2022, supported by the launch of three new product modules and geographic expansion into Southeast Asia. Hiring is expected to accelerate in H1 2022 with a target of 50 additional FTEs.
