Acme Corp Employee Policy Handbook – Version 2.0 (2024)

1. Introduction

This handbook supersedes all prior versions and sets forth updated policies governing employment at Acme Corp as of March 1, 2024. Employees must review the changes highlighted throughout this document.

2. Remote Work Policy

Following an internal workforce survey and benchmarking against industry peers, Acme Corp has expanded the hybrid work entitlement. Employees are now permitted to work remotely up to THREE (3) days per week, effective March 1, 2024. Manager approval is still required for schedules exceeding three remote days.

Employees must maintain a dedicated workspace and comply with the updated IT Security Policy (see it_security_policy) when working remotely.

3. Expense Reimbursement

The daily M&IE; reimbursement cap has been revised to reflect current cost-of-living indices. Effective January 1, 2024, the domestic per-diem allowance is USD $200 per day and the international allowance is USD $280 per day.

A new automated expense portal (ExpenseIQ) is now mandatory for all submissions. Paper receipts must be digitised and uploaded within 14 days of incurrence.

4. Code of Conduct

The code of conduct has been expanded to include guidance on AI tool usage. Employees must not input proprietary or customer data into external AI services without prior written approval from the Chief Information Security Officer.

All other conduct provisions from Version 1.0 remain unchanged.

5. Leave Entitlements

Annual leave entitlement increases to 18 days for employees with 3 or more years of service. All other leave provisions remain unchanged from Version 1.0.

6. Performance Reviews

The cadence of performance reviews has changed to an annual cycle in December, replacing the prior semi-annual schedule. Mid-year check-ins are still encouraged but are informal and not recorded in the HR system.
